Subject: KXLIH-LP, KXLIH-LD Both of Helena, Montana.

Hossein,

It was a pleasure speaking with you today in conference with Don Everist. As discussed, KXLIH-LD is a channel 9 translator operating in digital service as a companion channel to the previously authorized KXLIH-LP channel 25 analog translator, serving Helena Montana. Due to equipment failure with our older analog channel 25 transmitter, KXLIH-LP requested an STA to go silent pending a final determination of the failure. Per our discussions, we respectfully request permission to surrender the KXLIH-LP, channel 25 license and maintain the licensed KXLIH-LD digital channel 9 as our authorization for Helena Montana.

KXLI Communications, Inc., Butte, Montana, is the licensee of both stations.

On a personal note, I understand your son is employed in one of the hospitals in Montana. Our group owns and operates the CBS affiliates in Butte, Bozeman, Billings, Missoula, and Great Falls. Please consider this an open invitation to visit any of our facilities whenever you may be in town visiting. We'd love to have you stop by any of our facilities. Please drop me a line and I'd be happy meet you.

Thank you for your consideration.

Respectfully Submitted

Andrew Suk
